2000
18 10-11

1911-12
Dear Sir,
I enclose to you
4 copies of the Report on the Administration of the Board of Trustees for the Improvement of the City of Vysore, during the year 1910-11 with the usual statistical returns forming appendices to the same.

File II

The above report has been circulated among the Trustees of the Board and their formal resolution thereon will be forwarded by the end of this month.

Yours sincerely,

K. Mylar Rao

K. Mylar Rao, Esq., B.A., B.L.,

Assistant Secretary to Govt.

Encl 7/11/11

Administration Report of the Mysore City Improvement Trust Board for the official year 1910-1911.

~~XXXXXXXXXXXXXXXXXXXX~~

Personnel of the Board.

1. Mr.M.Kantharaj Urs, B.A., Deputy Commissioner, Mysore District, and ex-officio Chairman of the Trust Board, was absent on privilege leave for 1 month and 19 days in the year under report, viz., from the 17th April to 4th June 1911 inclusive, and Mr.A.Subramanya Iyer, B.A , acted for him -- during the said period.

2. The seat of one of the ex-officio Trustees, viz: that of the Deputy Sanitary Commissioner, which fell vacant in April 1911 under clause (b) of sub-section 2 of section of the City of Mysore Improvement Regulation, still ----- continues to remain as such, no one having as yet been ---- appointed as Deputy Sanitary Commissioner

Board's Meetings

3 Twelve ordinary meetings of the Board of Trustees were held during the year in addition to the two special -- meetings convened on the 6th August 1910 and on the 15th May 1911 for the consideration of certain deferred subjects ---

8.

subjects after field inspection and for the passing of the Budget Estimates for the year 1911-1912. Statement No. I appended to the report shows the dates on which the ---- several meetings were held during the year. The average attendance of the Trustees in these meetings was 78 per cent.

Committees appointed by the Board.

4. The Committee appointed under the Board's ----- Resolution No. III dated the 23th September 1910 to investigate the question of fixing standards for pronouncing --- dwelling houses as insanitary, held its sittings also ---- during the year under report. The Sanitary Commissioner to whom the matter had been referred, held that the matter lay rather outside the scope of the deliberations of the -- Central Sanitary Board. Thereupon, the Committee appointed by the Trust Board resolved that as it would take a long time to lay down definite standards for new constructions and for improvements of existing buildings, all such houses as were marked for acquisition but had not been acquired, be inspected meanwhile, in view to a report being made as to which of them could be spared on the ground of their -- being rendered sanitary. In accordance with the above -- resolution, the properties that had remained unacquired out

9

out of the declared zones in No. II Drainage Area and No. III Drainage Area, Part (A), were inspected, and notices in 53 cases were issued to the respective house-owners intimating that the Board would withdraw its proceedings in regard to the acquisition of ~~their~~ their properties, provided they -- undertook to improve them in accordance with the Health --- Officer's suggestions.

5. Regarding latrines and flush tanks in the City, the Committee appointed to report upon the matter, arrived at the conclusion that the construction of any more latrines and flush tanks without the assurance of a sufficient water supply, was not advisable and that their location when such water supply was assured, be decided in consultation with the Municipal Councillors of the Divisions concerned

6. During the year under report, a Committee was appointed by the Board to formulate proposals in the matter of imposing conditions with regard to the building of houses on the sites sold by the Trust Board

Improvement Schemes made by the Board

7. During the year under report, a consolidated --- drainage project for the City of Mysore, prepared on the ---

the lines laid down in the Chief Engineer's Note of April 1910, referred to in para 10 of the Administration Report for the year 1909-1910, and estimated to cost Rs.15,41,033 was sent up for the Chief Engineer's scrutiny. This project has, it is learnt, been forwarded to the Central Sanitary Board for their opinion, and that the said Sanitary Board have since approved of it generally. Government have, -- however, accorded sanction to certain parts of the above -- complete project as being urgent, viz , (1) estimate for -- laying stoneware pipes to connect the Chamundi Vihar Sewer with the Nazerbad Main, amounting to Rs.6,155, (2) estimate for increasing the size of the Ittiverud Main to receive the sewage from the new sewers in the Zoo Gardens and Palace -- Stables, amounting to Rs.2,429, and (3) estimate for lining -- cating the tunnel across the Statue Square of the Mysore -- City, amounting to Rs.4,927.

Board's Operations during the year

Acquisition of Properties

8. As in the two previous years, this work was done for the Board by Mr.W.G Prishnasami Rao, B A , an ex-officio -- Trustee, who as Vice-President of the Mysore City Municipal-ity, was under a formal Notification of Government, --- No.3892/W1.67-09-34 dated the 8th November 1910, appointe

appointed to perform the functions of a Deputy Commissioner under the Land Acquisition Regulation.

9. The number of properties acquired during the year under report, was 118 and the amount of compensation ---- awarded for the same was Rs.2,15,345 as shown in the sub-joined table:-

Area	No. of Properties acquired.	Amount of compensation awarded.	Average cost.
No.I Drainage Area	3	79	26
Jalapuri	1	407	407
Ittisequi	1	40	40
No.II Drainage Area	28	4,185	149
Old Dod-Holagere	8	1,244	155
No.III Drainage Area, Part i	1	100	100
No.III Drainage Area, Part ii	9	4,887	543
Krishnaraj Mohalla, Part i.	5	1,033	207
-----Do----- Part ii	1	300	300
Weavers' Lines	1	80	80
Port	59	2,02,580	3,434
Outside the area operated upon by the Board	1	410	410
Total	118	2,15,345	7,020

10. Payments to the extent of Rs.1,640 were also made during the year under report on account of certain properties

properties, the compensation whereof had previously been --- settled. A sum of Rs.781 being the cost of the temporary -- Establishment chargeable to works, was also debited against the grant under " Acquisition of properties ". In the case of 11 properties regarding which references had been made to Court for the apportionment of compensation awarded, a technical difficulty arose and they were withdrawn, and --- fresh cheques to the extent of Rs.10,558/- were issued in the year under report, pending the refund of the amounts of the original cheques issued on their behalf and the credit of the same to the City of Mysore Improvement Fund in the ---- course. Out of this sum of Rs 10,558/-, Rs.4,847 was recovered and adjusted during the report year only, so that the ---- actual booked outlay on the acquisition of properties during the year 1910-1911, was Rs.2,20,927 as detailed in Statement No.II appended.

Description of Properties Acquired

11 95 out of the 118 properties mentioned in the --- above para, were those acquired wholly, the remaining 23 -- being only portions. All the 59 properties acquired in the Fort were of the former class and they were either terrace or costly tiled houses. In the other areas, only 23 properties

13

properties were dwelling houses tiled or terraced, the ---
remaining 31 being either dry fields or vacant lands.

Operations in the Fort.

12. The bulk of expenditure on acquisition of properties has again this year been in connection with the properties in the Fort, which demanded earlier attention under Government Order No.7088-S/M.265-09-16 dated the 15th February 1910. Owing to the original provision of Rs.80,000 in the budget for the year being found insufficient for this ---- purpose, not only were the savings under " Acquisition " but also under other heads amounting to Rs.20,705 were --- appropriated for acquiring properties in the Fort, and the large unspent balance of Rs.1,10,000 out of the provision made for Construction Works, was also utilized for the same purpose under orders conveyed in Government Proceedings --- No 10548-50/M.176-10 dated the 23rd June 1911 Out of 365 properties notified in all for ~~the~~ acquisition in connection with the Improvements in the Fort, 316 properties were ---- acquired up to the end of the year under report, apart from one supplemental property acquired by agreement, leaving -- only 49 properties for treatment in the current year In the case of the remaining properties, all the preliminary steps have been taken. It is hoped that before November next, the

the project sanctioned for the improvement of this area, will have been fully worked out. A plan showing the proposed acquisition in the ^x Fort and that actually executed up to the end of the year under report, is appended hereto.

Acquisition in other areas.

18. During the year under report, the Government ---- sanctioned two supplemental estimates sent up by the Board for the further improvement of No. II and part 2 of No III Drainage Areas, involving the acquisition of 36 supplemental properties in the former, and 2 in the latter Acquisition in these and other parts of the City except the Fort, is -- being done in accordance with the actual needs of each ---- locality, the operations here being referred pending the --- decision of the Board after their inspection in the matter of acquiring, as suggested by the Chief Engineer, only such of the insanitary houses as could not be rendered sanitary by means of improvements effected in their drainage etc

References made to Court under the Land Acquisition

Regulation

14. The number of cases in which references were made for decision by the Subordinate Judge, Mysore, under Sec 10 of the Land Acquisition Regulation for the adjudication of

of the claims of the contending parties regarding the ----
 apportionment of the compensation awarded, amounting
 in aggregate to Rs.16,640/-, was 20 excluding the three cases
 withdrawn. In ten other cases, the amount of compensation
 awarded, viz., Rs.5,380 was deposited in the Court owing to
 the neglect of the persons concerned to receive the amounts
 tendered for payment.

Demolition of Properties.

15. Appended is a statement showing the number of --
 properties demolished in the several mohallas of the City
 during the year and the cost incurred on account of demoli-
 -tion and removing debris

Mohalla	No of properties demolished	Cost incurred
Lashker	.	
Mandi		
Devaraj	2	120
Wrishnaraj		
Chamaraj	1	60
Fort	53	6,250
Total	56	6,430

Out of this, 27 houses were demolished either by
 owners or the purchasers of materials of such ---
 houses.

Construction Works of the Board.

16. The progress under Construction Works during the year was not much. The duplicating of the tunnel near the Statue Square in the Curson Park, was commenced and --- partially executed in the year, and the collection of ---- materials such as stoneware pipes and specials and cast iron fittings, was also made for alterations and additions to the sewage mains in Wazerbad and Ittigerud. Some petty works -- were carried out in No II Drainage Area, final bills of --- contractors of No.III Drainage Area were settled and adjustment made of materials used to works. The total cost --- incurred during the year for these works was Rs 5,689

17. The main work of the Executive Division during the year, consisted in surveying, levelling, designing and ---- estimating for a scheme for underground sewers with out-fall works for the whole City in accordance with the Chief ---- Engineer's suggestions

Surveying the Town of Mysore

18. The expenditure under this head during the year under report, was Rs 688 including the cost of extra ----- temporary Establishment and the pay of lascars

Tools and Plant.

19. A sum of Rs.728 was expended under this item which included the cost of a machine for making " Hollow Cement Concrete Blocks " and the pay of a mechanic and a store-watchman.

House-Building Loans.

20. During the year under report, loans for house-building purposes of Rs 200 and under, were sanctioned in 30 cases, and more of more than Rs 200 but within Rs 500, in 6 cases, the total amount sanctioned being Rs.5,475 Out of this sum, Rs.4,085 were paid in addition to Rs.1,395 out of the loans sanctioned in previous years, thus making a -- total payment of Rs.5,800 against the budget allotment of Rs.14,500 for the year

21 The question of extending the benefit of the ---
Loan Rules framed under the City of Mysore Improvement ----
Regulation, to the officials drawing small pay, i e , Rs 20
and under, in the Government Departments, is still under the
consideration of Government The existing restriction that
these loans are to be granted to only those that are not ---
Government servants, deprives many a person of the latter --

10
9 Subd H
22/8/11

latter class of their benefit, especially those that cannot draw advances under the departmental rules. The modification in the rules as now proposed is absolutely necessary.

22. A Building Co-operative Society in the metropolis is also an obvious necessity to supplement the efforts of -- the Trust Board which can afford to grant only small loans for building purposes.

23. The repayment of instalments that fell due -- during the year under report, including principal and ---- interest, amounted to Rs.1,990 This added to Rs.4,879, the arrears of instalments that stood unrecovered at the end of 1909-1910, raised the total outstanding to Rs 6,869 against which Rs.1,907 was realized during the report year, leaving Rs.4,962 for future recovery The percentage of arrears at the end of the year under report, to the amount due to the end of that period, was 37 against 42 at the end of the ---- previous year, showing a decrease of 5 per cent, which ---- means an improvement in the collections of the report year over those of the year previous Statement No III appended to the report shows the amount of loans granted by the Trust Board up to the end of the year under report the amount of instalments that fell due and the amount actually recovered,

16

the interest being separated from the principal.

24. In order to secure a further improvement in this direction, an application was made to the Deputy Commissioner, Mysore District, under Sec.45 (1) of the Improvement ---- Regulation, for causing coercive steps being taken in the case of 17 persistent defaulters of the worst type for the recovery of sums due by them as an arrear of Land Revenue Proceedings are being instituted by the Mysore Taluk Amildar in the case of these persons

25. Regarding the misappropriation of sums collected by Wutsaddi Srinivasa Rao from the Loan Holders and the --- purchasers of the Trust Houses, it has been made out from a detailed investigation and enquiry that the said sum --- amounted to Rs.605 net as mentioned in this office report of April 1911 to Government. The said Srinivasa Rao has --- since been arrested, and is under trial in the City Magistrates Court, Mysore

Finance of the Trust Board

26. In accordance with the figures furnished by the Comptroller, the opening balance at the credit of the City Improvement Fund for the year under report, was Rs 1,913, the grant from Government was Rs.2,00,000 and the income -

d U

income from the sale proceeds of lands, old materials and other miscellaneous items including the refund of house-building loans, was Rs.32,894. The total receipts of the Board for the year thus amounted to Rs.2,94,807 against the total expenditure of Rs 2,69,893, leaving thereby a closing balance of Rs.24,908 at the end of the year.

27. Statements No.IV A and B showing the details of receipts and expenditure under each budget head as compared with the estimated amounts for the year 1910-1911, are --- appended to the report

1. Letter No. ³³²⁸~~3191~~/²⁷⁶S.A.~~77~~ dated
^{2nd Dec} the ~~10th August~~ 1911 from the Comptr,
Mysore Govt, submitting the ^{final} preliminary
accounts of the Mysore City Improvement
Trust Board for the year 1910-~~11~~.

2. Letter No. 49 dated the 17th
October 1911 from the Chairman of the
Board of Trustees for the Improvement
of the City of Mysore submitting advance
copies of the report of the Board for
the year 1910-11.

2 3. Letter No. 158 ^{date line 24th October 1911} from the same
officer submitting a copy of the resolu-
tion of the Board adopting the report
submitted with the above.

--

Order thereon No. ⁵⁹⁵⁻¹⁻⁹⁰~~-----~~

Dated Bangalore ^{26th} Novr 19

Recorded.

2. The receipts of the Board during
the year amounted to Rs 2,92,894

under

under service heads and Rs 11,487 under suspense heads. Including the opening balance, the amount available for expenditure during the year was

Rs 3,06,294, of which a sum of

^{2,69,963}
Rs ~~2,69,800~~ was spent under service

heads and Rs 13,433 under suspense

heads, leaving a closing balance of

^{22,958}
Rs ~~22,900~~ at the end of the year

3. Out of 365 properties ~~in all~~ notified ~~up to the end of the year~~, for acquisition in the Port, 59 were acquired at a cost of Rs 2,02,580 during the year. Apart from one ~~supplemental~~ property acquired by agreement the total number of properties acquired up to the end of the year is ^{given as} 313 and the number remaining to be acquired ^{as} is 52 ⁱⁿ ~~according to~~ statement No. II, but ^{in para 12 of the figures, in} ~~according to~~ the report the number ^{are} ~~acquired is~~ 316 ^{and 49} ~~and the number remaining is 49~~. The discrepancy requires explanation.

4. In the other areas under the operation of the Board, 38 properties were ^{notified} ~~declared~~ for acquisition during the year bringing the total number ~~so~~² ~~declared~~ to 5,549 up to the end of the year. Of these 4581 ^{had been} ~~have been~~ acquired up to the end of the year, including 34 acquired during the year, leaving 968 to be acquired. The acquisition of these properties ~~has~~ been deferred pending the decision of the Board after due inspection, as to ~~which of them are~~ ~~so insanitary that they cannot be~~ ~~improved and should be acquired and~~ ~~which can be rendered sanitary by~~ ~~improving the drainage etc, as~~ ^{other conditions} suggested by the Chief Engineer.

*necessity
for acquiring
them -*

5. The progress under construction ~~work~~ was not much, and ^{the} main work of the Executive ^{Engineer} Division consisted in the preparation of a comprehensive drain^{age} scheme with underground sewers with a outfall works for the whole city at an estimated cost of Rs 15,41,099.

Durin

During the year 56 properties were demolished by the Board at a total cost of Rs 6,439. ~~of which 27 were demolished either by the owners or the purchasers of the materials of such properties.~~

6. ~~During the year~~ ^{sum of Rs 5300}

was advanced by the Board for house-building purposes. From the ~~the~~ ^{loans already} ~~loan holders~~ ^{Made} a sum of Rs 1671 was recovered towards ^{the} principal and Rs 236 towards interest. The amount of principal outstanding ~~against the loan holders~~ was Rs 13,134 at the end of the year, of which Rs 5091 ^{here} was overdue. It is noted that interest amounting to Rs 684 has

been recovered though the amount due ~~on~~ ^{that account was only}

Rs 554 ~~only~~ as detailed in statement III

^{is not clear why more} It should be explained why there was an ^{interest was recovered} ~~excess recovery and how it is proposed to adjust the excess.~~ ^{in this way}

7. Govt desire to ~~express~~ their

^{the convey} thanks to the Trustees for their

labours

labours during the year.

3 Sanitary improvement of the remaining blocks of No. III Drainage Area			4 Sanitary improvement of the remaining blocks of No. III Drainage Area	1,896 12 6	
4 Purchase of sewerage pipes from Messrs. Dalson & Co. Ltd.	-1,190 8 7		5 Sanitary improvement of the remaining blocks of No. III Drainage Area		
5 Acquisition and demolition of insanitary houses in a portion of the City of Mysore	1,164 15 4				

7 *Improvement Schemes made by the Board* - During the year under report a consolidated drainage project for the City of Mysore prepared on the lines laid down in the Chief Engineer's Note of April 1910 referred to in para 10 of the Administration Report for the year 1909-10, and estimated to cost Rs 15 11 699, was sent up for the Chief Engineer's scrutiny. This project has it is learnt been forwarded to the Central Sanitary Board for their opinion and that the said Sanitary Board have since approved of it generally. Government have however accorded sanction to certain parts of the above complete project as follows, *viz*, (1) estimate for laying stoneware pipes to connect the Channarayana Sewer with the Nazarbad Main amounting to Rs 6 155 (2) estimate for increasing the size of the Ittigegud Main to receive the sewage from the new sewer in the Zoo Gardens and Police Stables amounting to Rs 2 129 and (3) estimate for duplicating the tunnel across the S. S. Canal.

Board's Operations during the year

8 *Acquisition of properties*—As in the two previous years, this work was done for the Board by Mr M G Krishnaswami Rao, B A, an *ex officio* Trustee, who as Vice President of the Mysore City Municipality, was under a formal Notification of Government, No 3892—Ml 67-09 34, dated the 8th November 1910, appointed to perform the functions of a Deputy Commissioner under the Land Acquisition Regulation

9 The number of properties acquired during the year under report, was 118 and the amount of compensation awarded for the same was Rs 2,15,945 as shown in the subjoined table —

Area	Number of properties acquired	Amount of compensation awarded	Average cost
		Rs	Rs.
No I Drainage Area	3	79	26
Jalapur	1	407	407
Ittagud	1	40	40
No II Drainage Area	1	4 1b5	1b5
Old Dod Holagere	1	1 944	1b5
No III Drainage Area part (i)	1	100	100
No III Drainage Area part (ii)	1	4 887	4b8
Krishnaraj Mohalla part (i)	1	1 0-81	207
Do part (ii)	1	300	300
Weavers Lines	1	80	80
Fort	59	2 02 180	3 484
Outside the area operated upon by the Board	1	410	410
Total	118	2 15 945	1,825

10 Payments to the extent of Rs 1,640 were also made during the year under report on account of certain properties, the compensation whereof had previously been settled. A sum of Rs 731 being the cost of the temporary establishment chargeable to works, was also debited against the grant under "Acquisition of properties". In the case of 11 properties regarding which references had been made to Court for the apportionment of compensation awarded, a technical difficulty arose and they were withdrawn, and fresh cheques to the extent of Rs 10,558 were issued in the year under report, pending the refund of the amounts of the original cheques issued on their behalf and the credit of the same to the City of Mysore Improvement Fund in due course. Out of this sum of Rs 10,558, Rs 4,347 was recovered and adjusted during the report year only, so that the actual booked outlay on the requisition of properties during the year 1910-11, was Rs 2,28,927 as detailed in Statement No II appended.

11 *Description of properties acquired*—Ninety-five out of the 118 properties mentioned in the above para, were those required wholly, the remaining 23 being only portions. All the 59 properties acquired in the Fort were of the former class and they were either terraced or costly tiled houses. In the other areas, only 28 properties were dwelling houses tiled or terraced, the remaining 31 being either dry fields or vacant lands.

12 *Operations in the Fort*—The bulk of expenditure on acquisition of properties has again this year been in connection with the properties in the Fort, which demanded earlier attention under Government Order No 7083 3—Ml 265 09 16, dated the 15th February 1910. Owing to the original provision of Rs 80,000 in the budget for the year being found insufficient for this purpose, not only were the savings under 'Acquisition' but also under other heads amounting to Rs 20,705 were appropriated for acquiring properties in the Fort, and the large unspent balance of Rs 1,10,000 out of the provision made for construction works, was also utilized for the same purpose under orders conveyed in Government Proceedings No 10548-50—Ml 176 10, dated the 23rd June 1911. Out of 365 properties notified in all for requisition in connection with the improvements in the Fort, 316 properties were acquired up to the end of the year under report, apart from one supplemental property acquired by agreement, leaving only 49 properties for treatment in the current year. In the case of the remaining properties, all the preliminary steps have been taken. It is hoped that before November next, the project sanctioned for the improvement of this area, will have been fully worked

out. A plan* showing the proposed acquisition in the Fort and that actually executed up to the end of the year under report is appended hereto.

13 *Acquisition in other areas*—During the year under report the Government sanctioned two supplemental estimates sent up by the Board for the further improvement of No II and part II of No III Drainage Areas, involving the acquisition of 36 supplemental properties in the former, and two in the latter. Acquisition in these and other parts of the City except the Fort, is being done in accordance with the actual needs of each locality, the operations here being deferred pending the decision of the Board after their inspection in the matter of acquiring as suggested by the Chief Engineer, only such of the insanitary houses as could not be rendered sanitary by means of improvements effected in their drainage, etc.

14 *References made to Court under the Land Acquisition Regulation*—The number of cases in which references were made for decision by the Subordinate Judge, Mysore, under Section 30 of the Land Acquisition Regulation for the adjudication of the claims of the contending parties regarding the apportionment of the compensation awarded, amounting in aggregate to Rs 16,640, was 20 excluding the three cases withdrawn. In ten other cases the amount of compensation awarded, viz., Rs 5,380, was deposited in the Court owing to the neglect of the persons concerned to receive the amounts tendered for payment.

15 *Demolition of properties*—Appended is a statement showing the number of properties demolished in the several mohallas of the City during the year and the cost incurred on account of demolition and removing debris.

Mohalla	Number of properties demolished	Cost incurred
		R
Lashkar		
Mandi		
Devaraj	2	120
Krishnara	1	60
Chamaraj	3	600
Fort		
Total	36	6,130

* Out of this 27 houses were demolished either by owners or the purchasers of material in such houses.

16 *Construction works of the Board*—The progress and construction works during the year was not much. The duplicating of the tunnel near the Statue Square in the Curzon Park was commenced and partially executed in the year, and the collection of materials such as stoneware pipes and specials and cast iron fittings, was also made for alterations and additions to the sewage mains in Nazarbada and Ittigeguda. Some petty works were carried out in No II Drainage Area, final bills of contractors of No III Drainage Area were settled and adjustment made of material used to works. The total cost incurred during the year for these works was Rs 5,689.

17 The main work of the Executive Division during the year consisted in surveying, levelling, designing and estimating for a scheme for underground sewers with out fall works for the whole City in accordance with the Chief Engineer's suggestions.

18 *Surveying the Town of Mysore*—The expenditure under this head during the year under report, was Rs 688, including the cost of extra temporary establishment and the pay of lascars.

19 *Tools and plant*—A sum of Rs 728 was expended under this item which included the cost of a machine for making "Hollow Cement Concrete blocks" and the pay of a mechanic and a store watchman.

20 *House building loans*—During the year under report loans for house building purposes of Rs 200 and under were sanctioned in 30 cases and of more than Rs 200 but within Rs 500, in six cases, the total amount sanctioned being Rs 5,475. Out of this sum Rs 4,085 were paid in addition to Rs 1,210 out of the loans sanctioned in previous years, thus making a total payment of Rs 5,295 against the budget allotment of Rs 11,900 for the year.

21 The question of extending the benefit of the Loan Rules framed under the City of Mysore Improvement Regulation, to the officials drawing small pay, i.e., Rs 20 and under, in the Government Departments, is still under the consideration of Government. The existing restriction that these loans are to be granted to only those that are not Government servants, deprives many a person of the latter class of their benefit, especially those that cannot draw advances under the departmental rules. The modification in the rules as now proposed is absolutely necessary.

22 A Building Co operative Society in the metropolis is also an obvious necessity to supplement the efforts of the Trust Board which can afford to grant only small loans for building purposes.

23 The repayment of instalments that fell due during the year under report, including principal and interest, amounted to Rs. 1,990. This added to Rs 4,879, the arrears of instalments that stood unrecovered at the end of 1909-10 raised the total outstandings to Rs 6,869, against which Rs 1,907 was realized during the report year, leaving Rs 4,962 for future recovery. The percentage of arrears at the end of the year under report to the amount due to the end of that period, was 37 against 42 at the end of the previous year, showing a decrease of five per cent, which means an improvement in the collections of the report year over those of the year previous. Statement No III appended to the report shows the amount of loans granted by the Trust Board up to the end of the year under report, the amount of instalments that fell due and the amount actually recovered, the interest being separated from the principal.

24 In order to secure a further improvement in this direction, an application was made to the Deputy Commissioner, Mysore District, under Section 45 (1) of the Improvement Regulation, for coercive steps being taken in the case of 17 persistent defaulters of the worst type for the recovery of sums due by them as an arrear of Land Revenue. Proceedings are being instituted by the Mysore Taluk Amildar in the case of these persons.

25 Regarding the misappropriation of sums collected by Mutsaddi Srinivasa Rao from the loan holders and the purchasers of the Trust Houses, it has been made out from a detailed investigation and enquiry that the said sum amounted to Rs 305 net as mentioned in this office report of April 1911 to Government. The said Srinivasa Rao has since been arrested, and is under trial in the City Magistrate's Court, Mysore.

26 *Finance of the Trust Board*—In accordance with the figures furnished by the Comptroller, the opening balance at the credit of the City Improvement Fund for the year under report, was Rs 1,913, the grant from Government was Rs 2,60,000 and the income from the sale proceeds of lands, old materials and other miscellaneous items including the refund of house building loans, was Rs 32,894. The total receipts of the Board for the year thus amounted to Rs 2,94,807 against the total expenditure of Rs 2,69,899, leaving thereby a closing balance of Rs 24,908 at the end of the year.

27 Statements No IV A and B showing the details of receipts and expenditure under each budget head as compared with the estimated amounts for the year 1910-11, are appended to the report.

M G KRISHNASAMI RAO,
For Chairman
